

Description

This document is about the description of the system of classes to evaluate lexical diversity of an essay using Writing Task 2 from IELTS. All images were created by [miro](#).

The system of classes

To evaluate the lexical diversity of an essay we should evaluate 3 tasks:

- 1) Semantic relations – shows diversity of semantically connected words
- 2) Lexical resource – shows diversity and deepness of used words
- 3) Word spelling&formation mistakes (not necessary) – shows mistakes in word spelling and formation
